Author's Note: This index will help you locate strategies based on key words, but will be of minimal utility when searching for specific strategies aligned to text type or genre since most strategies will work with a very broad range of texts. Refer to pages 17-19 of the Getting Started chapter for more general information, and the “What Texts Might Students Use When Practicing Strategies in This Chapter?” boxes at the start of Chapters 1-13 for goal-specific advice.
